

First Unitarian Society of Ithaca Tech Specs

Sanctuary and Parlor

In this document you will find Photos, Dimensions and Gear Lists of the Sanctuary and Parlor located at The First Unitarian Society of Ithaca.

The Sanctuary contains a sound system which includes wireless microphones. It also contains a display system consisting of 2 x 80" displays. Various inputs can be routed to the displays. There is also a live streaming system consisting of one PTZ camera, media players and audio connected to a computer which runs OBS and ZOOM. There is a lighting system consisting of 7 par style theatrical lights.

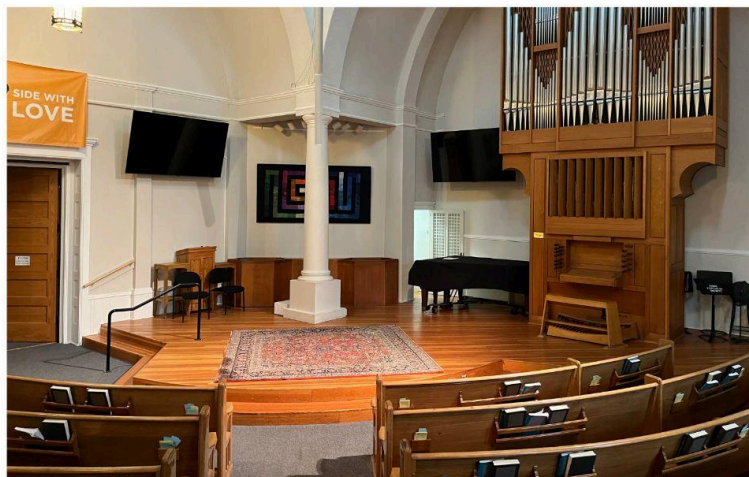

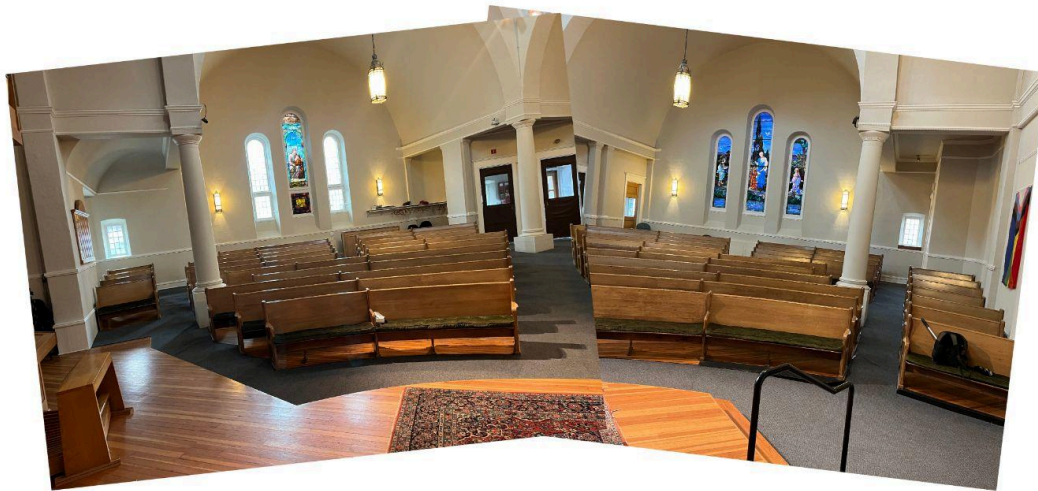

The Parlor has an installed sound system and a ceiling mounted projection screen. There is a portable projector and video conference system for the parlor. There is very fast, stable wireless internet throughout.
